

**North Carolina Swimming  
Records Coordinator Report – Wayne Shulby  
2008 Fall HOD**

NCS participated in testing the new USA Swimming LSC Records enhancements to SWIMs. After completion of testing, the records were transferred to the new system.

Records are now checked against SWIMs on a weekly basis during the season to incorporate new records in a timely fashion. Records can be view on the USA Swimming web under the NC LSC portal. The LSC Record system allows users to create a Meet Management Record's file for use at the meets.

Several changes have been proposed for the top 10 recognition and All Star recognition to reflect the changes to the Age Group recognition program by USA Swimming.
